

We are delighted to announce our exciting **EMIS NUG Virtual Conference**, the first online after 26 years of successful 'live' events.

The App. will launch for sign-up around 24th AUG - watch for announcements

This year's event is **FREE! for everyone** – members and non members of the NUG.

We shall be applying for CPD for the day.

We are building a large Exhibition Area for you to visit through the day and have Ardens as our Headline sponsor and Primary Care Pathways as a Gold sponsor. EMIS will have a large presence also.

We are all used to Teams and Zoom meetings but this will be quite unlike those! We shall be using an innovative platform accessible on a conference App. - no downloads needed. You can join for the whole day or dip in and out as your work allows. You will be able to interact with all exhibitors 1:1 or join small groups and join breakouts for discussion and demos. YOU can navigate the sessions and the day as you want and catch up later on anything you missed! It'll be amazing!

The NHS Long Term Plan has been compressed into a few scary weeks.
The rapid changes in practice show just how progressive and resilient is UK General Practice and virtualisation of our work has been a revolution.
Our conference will highlight and share the best of the new ways of working to see us all through the next phase of NHS history - which, inevitably, will continue to involve Covid-19.
Meanwhile structural changes dictate the need to reshape our services within the developing PCNs, STPs, ICSs and the rest. Networking and collaboration is the name of the game, **I.T. is the glue, so how best to make it all stick?**

Overall shape of the day:

- 2 streams: an exciting programme of sessions with live Q&A.
- EMIS news and update, 4 main stream EMIS sessions plus comprehensive exhibition area with lots of trainers and reps. to answer your questions 1:1 or join small breakout groups to see demos, training tips, contribute to the user experience in development.
- Live panel discussions
- Social networking with delegates via the App.
- Breaks between sessions to get updates from our sponsors and 1 hr lunch break to allow exhibitor areas to be visited (though you can 'walk through' and visit exhibitors at any time through the day)
- The App will be kept live for up to 6m for delegates to visit all the content and for members the sessions will be uploaded to our website.
- Polls
- Games
- Charitable donations to Alzheimers UK

PROGRAMME INCLUDES:

Two streams and breakout sessions :
 you won't be able to see everything on the day - though there will be a lunch break.
 So delegates will be able to access all content after the event through the App.
